

**SHINING ALUMINUM PACKAGING CO., LIMITED
PRODUCT INSPECTION REPORT**

Item name	Bag-on-valve Aerosol	Item No.	GMSC-011-123	
Order No.	GM240310707	Produced QTY	345000	
Date of Inspection	2024-5-20			
Inspection Item	Standard Value (GB/T 17447-2012)	Measured Results		
Appearance	1.Intact and clean. No scratches or peeling on the internal and external surface. 2.All parts installed correctly	In natural light/40W light, visual inspection at a distance of 20cm away	Qualified	
Size	Ø25.4mm-valve and aerosol cans Matching size	Vernier Calipers (accuracy 0.01mm)	D: 32.50±0.15mm	
			H: ≥8.0mm	
			H1: 3.30+0.30/-0.25mm	
			d: Ø25.15±0.08mm	
	Tolerance of the length of priming tube	Steel ruler/ Special gauge (minimum scale 0.5mm)	L≤150mm: ±1.5mm	
			150mm≤L≤220mm: ±2.0mm	
			L≥220mm: ±3.0mm	
Function	Unobstructedness: Under pressure 0.5MPa, all channels keep free when valve actuated.	Leakage Tester	Qualified - unobstructed	
	Sealability: Pressure not less than 0.85MPa, keeps non-leakage for 1minute.	Leakage Tester	Qualified - no leakage	
Notes: D- outer diameter of the cover to be fixed on cans; H- height of the cover to be fixed on cans; H1- height of the curl of the cover to be fixed on cans; d- internal diameter(excluding curl) of the cover to be fixed on cans				
Conclusion	Qualified			
Remarks				
	Inspector Zhi hua Chen	Inspection Supervisor Gai hong Lou
